

P U S H

PUSH is a clothing brand that we created to showcase our skills as an activewear/sportswear manufacturer as well as to sell it in the EU market. We believe it will be a valuable addition to the existing apparel market because:

- It comes from a factory that fully respects the environment and its workers human and workers rights
- Each piece was tested by professional athletes during the prototype stages and corrected according to their feedback before its official release
- GRS-certified recycled polyester is the only fabric used for PUSH

The background of the image is a complex, abstract geometric pattern. It consists of numerous concentric, nested lines that form a variety of shapes, including triangles, squares, and irregular polygons. The lines are drawn in different shades of teal, light blue, and dark blue, creating a sense of depth and movement. The pattern is dense and covers the entire frame.
